PROFILE

ABOUT US

Established in 1996, Corsa is a highly reputed name engaged in manufacturing and supplying a complete range of Bath Fittings. Backed by a team of qualified professionals, we have been able to bring forth the best quality products.

We have established a strong foothold in the national as well as international market by supplying the product to most demanding markets. Our products are processed using finest quality basic material, which ensures their high quality standards and efficiency. Our quality analysts test each lot of the finished products on well-defined parameters, thus ensuring compliance with international standards.

PRODUCTS

We serve as the manufacturer and supplier of Luxurious Bath Fittings. Our products are developed using accurate metal compositions and advanced manufacturing techniques, which ensure the quality, durability and credibility of our range. Further, we also offer our products in various customized specifications as per the requirements of our clients and industrial application of the products.

We also offer customized products as per the requirements of our clients and industrial application of the products.

VISION

Our vision is to be a world-class manufacturing enterprise employing lean and agile methods that poise us for fast, sustainable growth. We want to be a leading provider of innovative kitchen and bathroom solutions. With brand Corsa, we have stayed true to our mission of constant improvement and innovation. It is also our vision to be a complete water solutions provider.

QUALITY

Quality and perfection are the driving forces at our organization, that are actively taken care while manufacturing our offered products. For the production of these products, we have used best quality factor inputs that are obtained from reliable vendor base.

As an ISO 9001:2008 certified company, we always maintain quality in the following process like basic component procurement, processing, packaging and so on. In addition, our range also undergoes through a strict quality check procedure that ensure that its high quality standards. The quality procedure followed at our end also satisfies our international clients.

OUR EXPORT MARKET

Presently, besides All the major Cities of India, we have also made a presence in global market, over many countries. Our Overseas Market includes:

Nepal, Bhutan, Sri-Lanka, Bangla Desh.

INFRASTRUCTURE

We have established well developed infrastructure equipped with latest technology and advanced machinery, quality testing and warehousing facilities. Our infrastructure is divided into various sections to maintain the flow of work. Therefore, it helps in implementing proper coordination enabling efficient business activities.

The manufacturing unit is well facilitated with all the machinery and equipment that is required in the processing of Bath Fitting products.

RESEARCH & DEVELOPMENT

We possess a well equipped research and development unit managed by experts who conduct various experiments and researches on essential matters like formulation of chemicals and intensification of the process. Due to their untiring efforts, we are able to reach to the heart of our clients across the globe. Customer's complaints, market survey and feedback from periodic market research, etc. provide inputs to our experts with which they redesign and develop products according to latest trends and client's requirements.

WHY CHOOSE US?

We have emerged as one of the leading manufacturer and supplier of superior quality Bath Fittings

Experienced and Qualified Professionals

Strict Quality Management Programme

Client Focused Approach

Best Quality Metal Products

State-of-the-Art Infrastructure Facility

Latest Machinery

Reasonable Prices

Wide Distribution Network

On Time Delivery

Complete Customer Satisfaction

COMPANY GROWTH

Starting a business is like stepping onto a roller-coaster with no safety harness. Growing a business into a successful enterprise is a tough call, requiring perseverance, leadership skills, and a lot of critical thinking.

Welcome to Corsa founded in 1996, a leader in bath fittings. Corsa is an ISO 9001:2008 Certified Company with its roots in artistic traditions. Corsa has evolved into a cutting edge company in team of dynamism, market trends, and modern production techniques, all products justify to the brand's expressive potential and stand for beauty and prestige.

Years of experience in the creation of bath fittings, modern as well timeless design and high quality materials guarantee products. New and innovative solutions provide our products with additional advantages, which you as our customer particularly appreciated and Corsa grows day by day.

The journey of our company from 1996 to till now is shown in the growth graph as under.

Mould Making by VMC Machine

Corsa makes Die / Mould itself by using of high class VMC Machine to get a beautiful shape and size.

Semi Automatic Core Shooter Machine.

Corsa uses Semi Automatic Core Shooter Machine for better results.

Casting by Electric Induction Furnaces

Corsa uses Ingots and Honey Brass as a raw material which comes with a fixed percentage of copper and lead unlike others where scrap is mixed with zinc in an uncontrolled environment. Corsa has an in house electric furnace with thermostatic temperature control

CNC Lath Machine & Imported Double Spindle Machine

Corsa uses CNC Lath Machine & Heavy duty imported double spindle machines for machining processes like Boring, Turning, Drilling, Tapping etc.

Manufacturing Process *Corse* BATH FITTINGS

Grinding & Every Single Piece Checking

We grind the faucet to give smooth finish and check every single piece for our satisfaction.

Three Layers Electro Plating

Our products go through digitally controlled three layers electro plating plant. We have a complete digital electro plating plant for extra shiny look of our product.

Assembling Unit & Water Flow Testing

After casting, machining and electroplating, products are ready to assembled. Our assembling unit is perfect for their work. Every product first assembled, checked and go through a high water flow testing.

Laser Marking & Packing

After all major testing, products are ready to mark by Laser Printing Machine and packed. Now the product is ready to despatched.

Working : A faucet is a device for delivering water from a plumbing system. It consists of the following components: spout, handle(s), lift rod, cartridge, aerator, mixing chamber, and water inlets. When the handle is turned on, the valve opens and controls the water flow adjustment under any water or temperature condition. The faucet body is usually made of brass, though die-cast zinc and chrome-

Cartridge

Cartridge faucets have a hollow metal cartridge insert that seals against the spout or faucet body. Depending on how a series of holes in the cartridge align with the stem, water is mixed and controlled. Drips usually mean the cartridge needs replacing. Cartridge faucets are referred to as "washerless" because they control flow using methods other than a washer and valve seat (though they do have O-rings and seals to prevent leaking). Corsa makes a washerless single-handle faucet with a hollow brass cartridge insert that seals against the inside of the faucet body with O-rings. Water flow is controlled by an up-and-down movement of the cartridge; to change water temperature, you just rotate the handle.

Aerators

Corsa uses only Neop pearl Aerators
 Prevent splashing
 Shaping the water stream coming out of the faucet spout, to produce a straight and evenly pressured stream.
 Water conservation and reduction in energy costs
 Reducing faucet noise
 To increase the perceived water pressure, (often used in homes with low water pressure)

Chrome Finish

Upper shiny protection layer provides a mirror finish to every faucet. High plating thickness (Nickel : 10 microns and chrome : 0.3 microns) provides tolerance to extreme climate and water condition. 400+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.

Certification of Authenticity

An ISO 9001:2008 Certified Company
